HHL TECHNOLOGY
VITAL
PROTECTION

MUST-BUY

In hot, humid, malaria-prone areas, current logic says spray your clothing and bed linen rather than your skin – great news for

sensitive-skinned, allergy-

prone travellers. HHL

Technology Vital Protection

Spray is biodegradable, safe

and effective in repelling

mosquitoes and other

insects. Tip: spray

everything you plan to

wear before packing it

in your suitcase –

one thorough spray

is effective for up to

three months or 30

washes. It costs around

R120 at outdoor stores,

pharmacies and Netcare

Travel Clinics.
